OBJECTIVE

Would consider any website design, website development, marketing, graphic design and/or copy writing position available.

QUALIFICATIONS

- Skilled website designer. Professional level in PHP, HTML5/CSS, Javascript and SEO. View www.231graphics.com for full list of qualifications and testimonials from clients.
- I currently juggle approximately 60 web clients. Multiple tasks for each. Marketing, content building, SEO, web hosting, server administration and graphic design.

SKILLS AND ABILITIES

Over 14 years of web development, website design and marketing. Fully proficient in HTML5, PHP, CSS3, Social Marketing and SEO. Good communication skills and creativity. I like to think outside of the box and problem solve.

EMPLOYMENT HISTORY

Website Designer, 07/2010 - present | Freelance Web Design, Muskegon, MI
Freelance website design, ground up static builds utilizing PHP and HTML. Job requires self motivation and attention to detail. Experienced in all aspects of Internet Marketing.

Grind Specialist - CNC Grinder, 09/2005 - 07/2010 | Kaydon Corporation, Muskegon, MI
CNC operator/set-up in large grind area of Kaydon. A high level of expertise in grinding steel and/or cast iron. I am a problem solver with leadership abilities. Proficient in shop math and blue print reading.

Machine Set-up/operator, 01/2003 - 09/2005 | Engine Power Components, Grand Haven, MI
A high degree of expertise in the set-up and operation of O.D. Grinders, CNC Turning Centers and Horizontal Machining Centers.

Builder, 06/2002 - 01/2003 | Rycenga Homes, Spring Lake, MI
Worked as a component and wall builder responsible for building from a blue print in a fast paced self motivated environment.

Set-Up/Operator, 06/1996 - 10/2000 | Engine Power Components, Grand Haven, MI
The first manufacturing job I had. Worked strictly with O.D. Grinders. Gained experience with blue print reading, use of calipers, and shop math.

EDUCATION

Diploma - Basics High School | Muskegon High School, MI
College - Only took two classes that truly mattered. HTML and PHP
